

GODDARD TOOK FIRST GAME

Defeated Italian A. C. 11 to 4, Yesterday Afternoon

EIGHT TALLIES IN THIRD

Smith Pitched His First Game For Goddard and Showed Up Well—Gabeloni Twirled for the Italians.

The Goddard seminary base ball team made an auspicious opening to its season yesterday afternoon by defeating the Italian Athletic club nine, 11 to 4, in a well-played game. In spite of a stiff raw breeze that blew across the diamond, chilling the players to the bone, they put up a creditable game and the work of the seminary representatives gives promise of a strong team as the season advances. Smith, a young pitcher whose home is in Hardwick, was put into the box for Goddard and pitched an excellent game, showing good speed for a cold day and seemingly perfect control. He walked but one man and only six scattered hits were made off him, while he struck out nine.

The work of the team in the field was especially encouraging, for despite the wind that blew the ball in all directions, the outfielders gathered in everything that was possible while the infield had but three errors chalked up to them.

The Italians put up a scrappy game for the second scheduled contest this year, and with the exception of the third inning held Goddard down to one score in each one of the second, fourth and sixth innings.

Shiner opened up in the third inning with a rattling two-bagger that sealed the left field fence, but he was caught between second and third when Lee, the next man up, hit to third. Broggi then started the trouble for his team by shooting wild to first on Boynton's grounder, which allowed Lee to score. Moore rapped out a two-sacker into left that scored Boynton. Wishart drew a pass to first and then four singles in order by Smith, Spaulding, Sector and Shiner let Lee fly, letting in two more scores, making a total of eight for the inning out of twelve men who went to bat.

Gabeloni did the twirling for the Italians and was touched up for nine hits, six of which, however, were in that fatal third inning. The town team tallied first in the second inning when Davidi crossed the rubber after getting to first on Shiner's bad throw to first, stealing

Sarsatabs—Chocolate-coated tablets, combine the most for all known eruptions, successful treatment of skin diseases, kidney ailments, loss of appetite, flatulence, indigestion, etc. They are a solid extract of French Sarsaparilla, having all its wonderful medicinal power. Sarsatabs is the most powerful and effective medicine for all skin diseases, especially for eczema, psoriasis, etc. It is made by a French chemist, Dr. J. L. Sars, and is sold by all druggists.

second, going to third on Berry's muff of the third strike on Malherini, the next man up, and scoring on Calagni's assist by third.

In the sixth they tallied twice. Nicora opened with a single into left and went to second on F. Colombo's hit to right field, which Sector fielded to first in time to catch the batter. Gabeloni then caught one on the end of his bat and it sailed into the trees in the right field, giving him two bases and sending Nicora across the rubber. Davidi angled into center field, scoring Gabeloni.

The fourth point was made in the eighth by Nicora, who singled, stole second, went to third on an out to first and scored on Berry's throw to second to catch Davidi who had walked to first.

VERMONT BEAT BROWN.

Shut Out the Providence College Yesterday: Score 2 to 0.

Providence, R. I., April 22.—The University of Vermont defeated Brown on the diamond yesterday afternoon by the score of 2 to 0. The visitors scored their tallies in the first inning, during which they lined out two two-baggers. Brown's best chance to score was in the sixth inning when Nash doubled and Dennis went out at first on an attempted sacrifice. Raymond sent Nash to third, but Collins, Vermont's twirler, pulled himself together and struck out the next two men.

The weather was poor for base ball, but both teams showed up well.

ROOSEVELT REACHES AFRICA.

His Steamer Sighted Off Mombasa—He Will Soon Begin Hunt.

Mombasa, British East Africa, April 22.—The steamer Admiral, with Theodore Roosevelt and his members of his party on board, has just been sighted off this port.

The steamer Admiral arrives at Mombasa on scheduled time and Mr. Roosevelt yesterday landed in Africa for the beginning of his hunting and collecting expedition and his caravan march north to Egypt.

The Roosevelt party left New York March 23 for Naples on board the steamer Hamburg. At Naples they transferred to the steamer Admiral. The Admiral stopped at Messina, where Mr. Roosevelt met the King of Italy. The steamer passed through the Suez canal April 10 and made a brief stop at Aden, Arabia, April 15. On the way south from Aden a detour was made to call at Mogadishu, in Italian Somaliland.

At Mombasa Mr. Roosevelt will be entertained by the acting governor of the protectorate, F. H. Jackson, who has received special instructions from King Edward to show every consideration to the distinguished traveler. The Roosevelt party will leave Mombasa tomorrow afternoon on a special train for the ranch of Sir Alfred Pease, on the Athi river, whence the first shooting expedition will be made.

Wants The Big Fight.

Los Angeles, Cal., April 22.—Upon receipt of the news that James J. Jeffries had announced that he would fight Jack Johnson, Manager MacCarley of the Pacific Athletic club sent an offer of \$50,000 to Jeffries as his end of the purse, win, lose or draw. Should the big man accept, a suitable proposition will be made to Johnson. In case MacCarley is successful in having the fight before his club the contest will be pulled off in the Vernon arena, formerly owned by the Jeffries Athletic club, and probably will be carried for 45 rounds.

Has A Body Like A Slate.

St. Louis, April 22.—Edward Farran, 19, is a human slate. He is a patient at the City hospital. Letters written on Farran's back, with a blue pencil rise in welts and become as white as snow. They remain visible for an hour and then gradually fade away, or they can be erased with a wet sponge.

COMMINS FOR NEW YORK ACTRESS

Introduces His Bill to U. S. Senate

SEES 40,000,000 REVENUE

Exempts Everything Below \$5,000 and Is Graduated from \$10,000 to \$100,000 and Over at Charge of 6 Per Cent.

Washington, April 22.—Senator Cummins yesterday introduced his amendment to the Payne-Aldrich tariff bill, providing for a graduated income tax, which he believes would produce \$40,000,000 revenue. Mr. Cummins pointed out that it differs in some important particulars from either the law of 1894 or the amendment offered by Senator Bailey. It exempts incomes below \$5,000 and authorizes the deduction of that amount from every dutiable income. The rate provided for is as follows:

Upon incomes not exceeding \$10,000 2 per cent; not exceeding \$20,000, 2½ per cent; not exceeding \$40,000, 3 per cent; not exceeding \$60,000, 3½ per cent; not exceeding \$80,000, 4 per cent; not exceeding \$100,000, 5 per cent; upon all incomes exceeding \$100,000, 6 per cent.

Mr. Cummins believes that the graduated tax so provided for will produce a somewhat less revenue than a flat tax of 3 per cent. The duty is to be levied upon individual incomes. The chief reason for not including corporations is that, to put a tax upon the incomes of corporations is to tax those who are stockholders of the corporations, but whose total income would not reach \$5,000, precisely as though they had dutiable incomes.

The amendment proposed by Mr. Cummins further provides that all corporations shall make annual reports, showing their gross and net earnings, the amounts paid as interest and dividends, and the persons to whom payments are made, and also the names of all officers or employees receiving \$5,000 per year or more. In this way the unadvised profits of a corporation are ascertained and the distributed share of each stockholder charged as a part of its income.

In presenting the resolution to the Senate, Mr. Cummins declared that a graduated income tax on corporations would result in great corporations paying the highest rate, although their stock might be largely held by men of small means. In that way the result might be to place the highest tax on men of small means.

Mr. Cummins said he recognized that his amendment challenged the opinion of the supreme court of the United States on the law of 1894 in respect to the constitutional requirements regarding direct taxation and he believed it would be impossible to frame an income tax that would not antagonize that opinion.

"If," he added, "that opinion is to stand in its full scope then the United States must abandon for all time or until the constitution is amended the exercise of power and authority which has been recognized for 100 years before the opinion was announced."

Mr. Cummins expressed the opinion that the supreme court should again be invoked. "That decision," he said, "restricts the federal authority and we should not permit time to pass without again asking an examination of this vital power of the government." He declared that such a restriction of the power of taxation of the government should prove disastrous in time of war. Calling attention to Mr. Cummins' failure to tax incomes of corporations in his proposed amendment, Mr. Bayner declared: "We are after the corporations principally, and I think you should be, too."

"I am after justice and I am not after corporations," retorted Mr. Cummins. Senator Smith of Michigan said the proposed amendment would not reach the incomes of Americans resident abroad unless the tax was placed upon corporations. Mr. Bayner took the same view. "Suppose," he said, "Carnegie with an income of \$500,000 a year, derived from the steel corporation, should be living abroad, there would be no way to collect the tax if he had no other property in the United States to be attached."

"I propose," replied Mr. Cummins, "that the corporations shall pay that tax. That is the purpose of my amendment."

To Talk About Smuggling.

Washington, April 22.—Collector William Loeb, Jr., of New York arrived here last night, and it is understood that he will have a conference today with President Taft and Secretary of the Treasury MacVane regarding the New York smuggling cases.

Habitual Constipation

May be permanently overcome by proper personal efforts with the assistance of the one truly beneficial laxative remedy, Syrup of Figs and Elixir of Senna, which enables one to form regular habits daily so that assistance to nature may be gradually dispensed with when no longer needed as the best of remedies, when required, are to assist nature and not to supplant the natural functions, which must depend ultimately upon proper nourishment, proper efforts, and right living generally. To get its beneficial effects, always buy the genuine

Parisian Sage Made Her Hair Grow Two Inches in Seven Months.

Of all the women in the world, an actress most ardently desires beautiful and luxuriant hair. And when her hair begins to fall out she becomes anxious, and intelligently seeks for a preparation that will stop the hair, grow new hair and give life and beauty to the old.

Joan Sawyer, a clever, handsome actress, has this to say of Parisian Sage: "To whom it may concern: Have tried most every hair tonic available, and at last Parisian Sage was recommended to me, and, as a last resource, used it to my entire satisfaction. My hair has stopped falling, dandruff stopped, and my hair has grown two inches in the last seven months. It is the best and only sure cure for thin and short hair I know."—Joan Sawyer, 28 East 96th street, New York City.

Parisian Sage is the scientific hair restorer that has created such a sensation since its introduction into America about two years ago. It is such a quick acting prescription that every actress who sells it will guarantee it to cure dandruff, stop falling hair, splitting hair, and itching scalp in two weeks, or money back.

It is the most delightful hair dressing in the world, and is highly praised by society women and actresses who have luxuriant and glorious hair.

It will turn harsh, lusterless hair into soft, silky and luxuriant hair in a few days.

The Red Cross Pharmacy are the agents for Parisian Sage in Barre and they sell it for 50 cents a large bottle, the largest bottle for the price on the market.

ALARM OVER ICE JAM.

No Way of Remedying Niagara Situation.

Niagara Falls, N. Y., April 22.—Vast masses of broken ice piled in a confused mass in the mouth of the Niagara river where it flows into Lake Ontario threaten the Lewiston suspension bridge, which is eighty-five feet above the normal level of the river. Moving ponderously before a tremendous pressure of water the mass of ice is slicing off the river embankment as it passes and threatens serious damage to some of the hotels on the river bank ordinarily high above the water. Great fields of ice are pouring over Niagara Falls constantly adding to the accumulation which clogs the exit of the river into Lake Ontario. This increased the height of the mound of ice at Lewiston, which is already nearly eighty feet above the usual level of the river. Appeals for help have been made to the war department and Governor Hughes, and the governor has sent an expert in the use of explosives.

The body of an unknown man apparently an Italian, was found this morning hanging on the rocks near the face of Goat Island. He had apparently been dead for several days, and it is believed he came over the American Falls. The body is hanging on the rocks, embedded in the ice.

Colonel James B. Price, in charge of the Buffalo office of the United States Engineering Corps, declares that the dam is absolutely helpless to render any assistance at Lewiston and Youngstown. He inspected the conditions on Sunday and found the ice at the mouth of the river at least seventy-five feet in thickness, and that a boat would be powerless. Dynamite, he also said, would be helpless. It would make about as much impression, he said, as if exploded in soft dirt. He saw absolutely no way to relieve the condition and said that it was simply past human ingenuity.

If the ice was hard-frozen together solid, then there would be some possible chance to relieve the situation.

NIGHT RIDERS MUST PAY.

Two Kentucky Negro Victims Get Verdicts of \$25,000 Each.

Paducah, Ky., April 22.—No defense was offered in the federal court to the suits of Lee Baker and Nat Frizzell, negroes, for damages on account of the Birmingham night rider raids, and the jury awarded them the full amount, \$25,000 each, as instructed by Judge Evans.

Baker and Frizzell were driven out of Birmingham, in Marshall county, 30 miles from here, by the raiders on March 9, 1908, after being whipped until, according to the testimony of Dr. Robert Overby, the lash cut into the muscles of their legs. On this raid John Scruggs, an aged negro, and his daughter's infant, were killed by bullets. The Scruggs family, which also brought suit, is quartered in Metropolis, Ill., with smallpox, and their cases were continued.

Thirty-one defendants compromised for \$2,000, and the suits against them were dismissed.

WAR ON OKLAHOMA LYNCHERS.

Grand Jury Will Investigate Affair—Sensational Results Expected.

Ada, Okla., April 22.—Sensational developments are expected to follow the trial of the body of Joseph Allen, B. B. Barrell and J. B. Miller, four prominent cattlemen. Attorney General West has summoned County Attorney Wimlish to appear at Ada, where the grand jury will investigate the affair and attempt to prosecute the leaders of the mob. A special grand jury will be organized. It is reported that the indictments will cause amazement when the names are known. Edward and David Johnson, charged with the murder of City Marshal Putnam, were taken from the jail here to Tecumseh for safety. Oscar Peeler, who confessed that Miller killed Marshal Robbitt, of which crime the four men were charged, was also removed to Tecumseh.

AGAINST A "DRY" MISSOURI.

St. Louis Greatly Roused Over Prohibition.

St. Louis, April 22.—Members of the municipal assembly, bankers representing all of the financial institutions of St. Louis, members of commercial organizations and association, departed yesterday for Jefferson City, where they appeared last night before the Senate committee on constitutional amendments, and protested against the passage of the state-wide prohibition resolution. With one exception, all of the commercial organizations of St. Louis have gone on record as opposing state-wide prohibition. The municipal assembly has adopted resolutions declaring that such drastic legislation would result in disorder in finance and trade, and would have a destructive effect upon St. Louis.

SUITS TO ORDER

Many men prefer to have their clothes made to order. There are advantages in this which we fully appreciate.

We are in close touch with the very best tailors in the country and give careful attention to this class of trade.

Now we are showing the very latest Spring and Summer Suits for 1909. The patterns are nobby and the weaves are stylish and attractive.

It don't matter what your figure may be we guarantee a perfect fit in every line, together with absolute satisfaction.

Suits from \$25.00 up.

CHILD WAS RESCUED.

After Being Swept By Current in Brook For 400 Feet.

Rutland, April 22.—Nelle Fregosi, age five years, a pretty Italian child, who is daughter of Mr. and Mrs. Adolpho Fregosi of 38 Water street, fell into East creek yesterday morning and was carried about 400 feet by the swift current before she was rescued in a semi-conscious condition by Arthur E. Niles, an employee of the Rutland Railway, Light & Power company. The child was put into bed as soon as she was taken home and, unless something unexpected sets in, she will be none the worse for her narrow escape from drowning.

The little girl's home is on the east side of the street, facing the stream, and it was while reaching over the water to get some "pussy willows" directly in front of the house 200 feet north of State street, that she fell into the creek. The stream is greatly swollen by snow melting in the mountains and the child was unable to gain a footing in the swift current. The water is from one to two feet deep in that part of East creek and Nelle was rolled along, some times buoyed up by her clothing and at others under the surface, until she was rescued about 100 feet north of the West street bridge.

Had it not been for the cries of persons who observed the girl's peril from the bridge, but were too frightened to render aid Mr. Niles who was working near the gas house on the bank of the creek, might not have noticed the little child in the water. He had just time when he heard the cries to wade into the stream where the water was about two feet deep and catch her as she was swept swiftly along. The girl was strangled badly when pulled from the water but a few minutes after being taken into one of the buildings she was able to stand and soon taken home where Dr. L. A. Hodel attended her.

If the child had not been rescued near the point where she was taken out of the water she would undoubtedly have been swept along down stream where East creek passes through some meadows and eventually into the deep water of Lake Champlain, as she probably would not have been seen after passing West street bridge.

The girl's mother was in a state of nervous collapse yesterday afternoon as result of the accident. Mr. Fregosi works in Proctor.

100 MILE WIND CAUSES HAVOC.

Blows Girl Into Pond, Uproots Trees, and Unroofs Buildings.

Cleveland, April 22.—A squall which swept along the southern shore of Lake Erie yesterday left death and ruin in its wake. The wind reached a velocity of nearly one hundred miles an hour for a few minutes.

Day was made as dark as night. Trees and frame houses were blown down in all parts of the city. Lightning started many fires.

A young woman was blown into Wade Park Pond and drowned. The roof was blown from the main building of the Case school of applied science and from Adelbert college. More than a dozen trees were blown down in Woodland cemetery.

Telegraph and telephone wires are down on all sides.

WOMEN ARE VICTIMS

Indoor Life and Lack of Exercise Causes Piles.

More women than men have piles. It is because they take so little outdoor exercise and are so often constipated. There is a stagnation of blood in the lower bowel, and no amount of cutting or treatment with ointments and suppositories will remove this cause.

Dr. Leonard's Hem-Roid, an internal tablet medicine, will permanently cure any case of piles, removing the cause. Price, \$1 at Rusk & Wells, Barre, Vt. Fully guaranteed. Dr. Leonard & Co., Station B, Buffalo, N. Y. Write for booklet.

SUES FOR \$25,000.

Dish Washer Who Fell Into a Tub Wants New York Hotel to Settle.

New York, April 22.—Gus Petrais appeared before Justice Guy and a jury in the supreme court yesterday in a suit for \$25,000 against the Breslin hotel company for personal injuries he asserted he sustained by falling into tub in which dishes were washed.

The plaintiff was employed in the hotel as a dish washer. He said the tub not only contained scalding water, but also certain chemicals used in washing the dishes. He testified that he was badly burned; that his nervous system sustained a severe shock and that he suffered great pain for a long time. Counsel for the hotel contended that whatever injuries the plaintiff sustained were due to his own negligence.

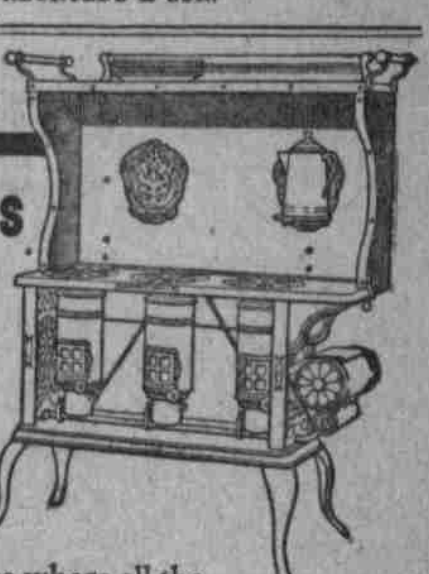

ILLINOIS VOTES ON LIQUOR.

Not Many Towns There Throw Out the Saloons.

Chicago, April 22.—Municipal elections were held Tuesday in most of the small cities and villages of Illinois, in which the issue in most instances was either local option or good government. Results on the whole are not favorable to the advocates of local option, only four towns voting on the question going "dry" so far as reported. At Dowie's Zion City, Wilbur Glenn Voliva, candidate for mayor, was defeated. The city was aglow with bonfires celebrating Voliva's defeat. On the question of smoking, profanity and liquor, the city voted to remain free from the practice.

PE-RU-NA TABLETS. The Peruna Tablets will be found effective and convenient for people much exposed to cold and subject to catarrh. Laboring men, exposed to the elements; traveling men, exposed to a constant change of food and sleeping apartments; will find the Peruna Tablets of great value in preventing colds, catarrh and derangements of the stomach.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

Weak and unhealthy kidneys are responsible for much sickness and suffering, therefore, if kidney trouble is perceived to continue, serious results are most likely to follow. Your other organs may need attention, but your kidneys most, because they do most and should have attention first. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root. A trial will convince you of its great merit.

The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases. If you need a medicine you should have the best. Sold
